MARSHALS AND AIDES NAMED FOR BIG HALLOWE'EN PARADE.

Town Is Divided Into Districts Where Mummers Will Assemble Before Marching to South Side.

CHIEF ROTTLER IN THE LEAD

He Will Guide Parade Over the Line of March—Best of Order Prevailed Last Night and Few Chalk Marks Were Made—Y. M. C. A. Has Treats

Burgess J. L. Evans and Roy C. M. Watson held a conference this morning at which time plans for the Halloween parade were formulated and the various sides appointed. The town was divided into sections and a man placed in charge of each division. These districts are as follows: South Side, Pinnacle, Second Ward, Fourth Ward and West Side. The boys will assemble at the school houses in their respective districts and promptly at 7:30 will move to the South Side, where the parade will form on Washington and Cedar avenues, near the Armory.

The line of march as mapped out, provides that the parade will march down Pittsburg street to Gibson avenue, up Gibson to York, down York to Fayette, down Fayette to Pittsburg, up Pittsburg to Fairview, to Prospect, to Main and thence to the West Side. At Sixth street the parade will turn down to Meason avenue and thence into Eighth street. From there the boys will march to Main street and over to the East Side, turning out Pittsburg street to the Y. M. C. A. building, where it will disband.

Secretary Chase of the Y. M. C. A. has made arrangements to entertain many boys as care to remain in the Y. M. C. A. building, after the treat for each of them has been distributed. A short program has been arranged, including a couple of boxing matches that will prove interesting.

Burgess Evans, it is understood, has agreed to make arrangements to furnish the red fire for the occasion and this will be turned over to the division marshals for distribution among the paraders.

The marshals and their aides named this morning are as follows:

C. H. Baisley, marshal; Aides, R. S. Brashner, Edgar Cypher, John Dugan, Bert Ritchey and Prof. F. R. Yoder.

Pinnacle.
Prof. W. E. Atkinson, marshal; Aides R. C. Lyon, George Enos, M. J. Heale, A. O. Uicker, Duncan Bennett, G. S. Conwell and W. S. Stimmel.

Second Ward.
Prof. F. W. Jones, marshal; Aides, Andrew Rottler, Thomas McGuire, L. V. Marshall, B. Rottler, Clifford Williams, Harry Miller and Matthew Witmer.

Fourth Ward.
Charles J. Kilbourne, marshal; Aides, Lawrence Schick, F. J. Chase and R. A. Doerner.

South Side.
H. O. Koczey, marshal; Aides, R. E. Porter, Prof. G. H. Dell, C. H. Brown, Otto Tippman, Paul Dick and Earl Porter.

Snyderstown.
John Enos, marshal; Aides, Robert McCormick and George Zacharias. The Snyderstown delegation will form and join the Pinnacle boys at the Third Ward school. The Fourth Ward school boys will meet and form at the Y. M. C. A. building under the direction of Physical Director C. J. Kilbourne.

All the Y. M. C. A. boys are asked to meet in the building at 9 o'clock tomorrow morning to formulate plans for the parade.

Chief of Police Rottler was named by Burgess Evans to lead the parade over the route that has been chosen. Special officers will be detailed to assist the regular force to preserve order in town.

Indications are that many fantastic and unique costumes will be used by the merry mummers in the parade. The girls will be given place in the line if they desire to march. It is expected that some of them may show the boys a thing or two in the line of fantastic costumes.

Burgess Evans expressed himself this morning as highly elated over the prospective success of the Halloween parade on Saturday night and believes the activity in that respect resulted in better order last night than on any previous "chalk night" since the memory of the oldest inhabitant caneth not to the contrary.

There were some chalk marks in evidence this morning, but these were not so prominent as in former years. Taken as a whole, the best of order obtained and but few complaints were made to the police. There were fewer obscene sentences, words and diagrams than ever before.

The Burgess believes that by going along with the youngsters and helping them have a good time Halloween night has done much to

MAN AND FAMILY KIDNAPED BY OFFICERS.

Drove Up to Home of Mike Salmon of West Newton at 3 O'clock This Morning and Took Him Away in Wagon—Salmon Sought on Charge of Running Away With Another Man's Wife Three Years Ago in Coke Region.

Special to The Courier.

WEST NEWTON, Oct. 29.—A party of officers, supposed to hail from Fayette county or Greensburg, executed a daring kidnaping here at 3 o'clock this morning when they carried off Mike Salmon, his wife and two children in a covered wagon. It is said here that the officers broke into the Salmon home and literally carried the entire family into the wagon. The party then drove off at top speed and when last seen were headed up the river. Salmon is a Russian Jew who has been located on the west side of West

Newton for the past three years. It is reported that when he came here he was accompanied by the woman posing as his wife, who had deserted her husband, living in the coke region. At that time she is alleged to have taken \$300 belonging to her husband and left behind two children. She has since, it is said, become the mother of two children by Salmon. The man, Salmon, enjoyed the respect of the community where he has resided for the last three years and the community is aroused over the daring kidnaping. There is an air of

mystery about the entire matter. The invading officers slipped into town almost unnoticed. They could not be recognized, as they were huddled up in the body of the wagon. The driver was notified to the extent that he could not be recognized.

District Attorney Henderson denied any knowledge of the matter when interviewed this afternoon. Neither he nor County Detective McBeth had any knowledge of the affair. The Westmoreland county authorities were also ignorant of the affair.

MAY ABANDON THREE PLANTS IN WHEELING

American Sheet & Tin Plate Company Reaches Decision Due to Strike.

Special to The Courier.

PITTSBURGH, Oct. 29.—With every street and tin plate plant owned by the American Sheet & Tin Plate Company in operation but three in the Wheeling district, and with production running 75 per cent in the plant and 85 per cent in sheet steel, the official announcement was made yesterday that normal conditions now exist with the exception of the Wheeling district. This was followed by the statement from President E. W. Tuguey that unless the three Wheeling district plants were in operation, at least in part, by November 1, they would be closed up and all unnecessary expense of maintenance would be cut off.

The three plants are the La Belle, Laughlin and Acme-Standard. The strike of the men in these plants has been conducted with much vigor. The company considered it useless to force any operation of the mills and made no effort to start them, devoting its time to getting all other sections into operation.

In explaining the future of the idle plants, it was said that they would be closed "indefinitely." The statement in the plants would be buying upon for others instead of buying new machinery, until the plants became dismantled of all that was worth moving.

CIVIC LEAGUE HOT ON TRAIL.

It Gets After Tax Collectors in South Union and Georges Twps.

HAVE NOT COMPLIED WITH LAW

Brownfield Alleged to Have Wrongfully Issued at Least Two Receipts—Evangelical Church Did Not File List With Commissioners.

UNIONTOWN, Oct. 28.—At least two tax collectors will have an opportunity to air their troubles before the court as a result of this campaign instituted by the Civic League of Uniontown. Information will be made this afternoon against John C. Brownfield, tax collector of South Union township, and Ewing Swamy, a prominent Democrat of Georges township, also tax collector of that township.

A specific charge is made against Brownfield: It is regarding tax receipt No. 1014, dated October 2, 1909, and alleged to have been issued to Tom Walker for 10 cents, county tax.

From the records of the criminal courts it is shown that Tom Walker was arrested July 7, 1909, on a charge of larceny and receiving stolen goods and was sentenced on July 13 to a year and six months in the workhouse. He was taken to the workhouse on July 15. Tom Walker is a son of Lewis Walker, upon whose affidavit information was made against Brownfield several days ago. According to the list of the assessors of South Union township, Tom Walker is assessed as boarding with Lewis Walker at Lehigh, so there can be no mistake in the identity.

The information will also charge that Brownfield issued tax receipt No. 577, dated September 29, 1909, to one Joe J. Jones, making affidavit to effect that he did not pay this tax, 40 cents, for county purposes, and that he did not authorize anyone to pay this tax for him. Arrest of Brownfield is asked on the grounds that he violated the second section of the act of July 15, 1897.

The charges against Swamy are that he has not complied with the provisions of the act of July 25, 1893, which requires a Tax Collector to file in the office of the County commissioners, 20 days prior to each election, a list or report containing the number of each receipt issued, the date of payment, name of the taxpayer and amount of tax, together with the district in which the taxpayer is assessed.

It is said that similar action may be brought against other tax collectors who have not complied with the law in this respect.

LAFOLLETTE EXCORIATES SPEAKER CANNON AGAIN

Declares "Wolfe's" Days in Sheep Fold of the People Are Surely Numbered.

United Press Telegram.

MADISON, Wis., Oct. 28.—Senator Robert M. LaFollette, in his weekly magazine, again attacks Speaker Joseph G. Cannon. The editorial is headed by the speech of Cannon in which he attempted to read LaFollette and other "insurgent" Republicans out of the party. The Senator, it is said, says in part:

"These people," Speaker Cannon is reported to have said, "call themselves Republicans, but if they are, I am something else."

"We hope Cannon is right. If Cannon is a Republican, those progressives are not. Neither was Abraham Lincoln."

After attacking Cannon's methods, the editorial says:

"His pronouncements are but the snoring of a giant old wolf who hears legs in the woods. He is still at bay and his fangs are long, but his days within the sheep fold of the people are surely numbered."

MAY BE MEETING TONIGHT

Probably \$3,000 in Treasury, Says Treasurer Rutter, and Collection of Race Street Paving is in Doubt, as Property Owners Are Holding Out.

With the Council meeting scheduled for tonight, the Borough Treasury appears to be in bad condition. "Maybe there is \$3,000 on hand," said Borough Treasurer I. W. Rutter this morning. "But I can't tell how much the bills will total. Last month they ran up to nearly \$5,000 and in the preceding month since February they have been as high as \$5,000 each month. More than two-thirds of the revenues from the sixty day duplicate has already been exhausted. The Borough is up against a financial crisis."

Treasurer Rutter was consulted this morning about the financial standing of the Borough and was rather discouraged over it. The payroll tonight if a Council meeting is held, and President Chair Stillwagon said that it is a possibility, will probably completely exhaust the funds of the town. It does not appear that there will even be sufficient to pay off all the bills.

The payroll last month was close to \$6,000 and Treasurer Rutter reports that for previous months between \$4,000 and \$5,000 has been expended in paying men working on the streets. He is not sure that there will be sufficient in the general fund tonight to take care of the orders for the past month.

There are large bills out for paving thoroughfares and if they are paid this will probably help some. During the past few days \$700 has been paid into the paving fund. There is upwards of \$2,500 outstanding upon Fayette street, while the Race street people refuse to pay their assessments and a damage suit seems to be possible, and probable.

The residents of this section say that the town agreed to put the street to grade. What they considered grade was that the city should cut down the grade and place the street filling ready to place the brick. They were under the impression that after this work was done they would have to pay two-thirds of the cost of paving and laying of curbing. The total bill against the Race street property owners is about \$1,000, but none of them has paid the assessment. The greatest cost was incurred in placing the street to grade, as a large number of cuts had to be made in "bumps" in the street and the ditch occurs in that regard.

Other streets in town have been paved and graded and it has been customary to charge two-thirds to the property owners on each side of the street for all grading and work, but if Race street is allowed its grading free it would be manifestly unfair. Some Councilmen say—the difficulty arises over the fact that a petition was passed in Council that the street be graded instead of establishing lines of grade. The residents refuse to pay for the grading, although it has been accomplished believing that the grading was a part of the responsibility of the borough and the outlook for a long drawn out fight is in sight.

The 60-day collection money of \$1,780.73 paid in has all been expended. During the month paving bills have been paid, not exceeding \$8,000, says the Borough Treasurer, and there is perhaps \$3,000 in the treasury now. Where the future expenditures are to come from he does not know. Since February the Council has been an expensive one, spending money in all directions.

No notices had been sent out up to noon to the members that a meeting will be held tonight, but the word has been passed quietly around that a meeting would be held.

M. Demma & Co. Lose Valuable Team in Stable Fire.

THE SECOND FIRE IN SCOTTDALE

The Night Previous T. J. Dikins House Suffered From Flames—The Team Was Familiar One That Hauled Fruit Wagon.

Special to The Courier.
SCOTTDALE, Oct. 29.—The second fire in 21 hours here was one that cremated two horses of M. Demma & Company when those stable on Bridge street was burned and surrounding property including one of the horses was threatened yesterday afternoon. Just how the fire was started has not been determined, but it is believed that sparks from the chimney of a house close by where baking was going on, and wood was thrown into the fire, started it.

Mr. Demma was away and so was Mike Yancarlo, another member of the firm who was over in evening with a single horse of the two of the horses were in the stable and the first Mike heard of the fire was when Postmaster W. T. Rouse told him that he had heard that two horses had been burned up in Scottdale. The team was valued at \$500, the first said last night.

The fire company arrived on the scene early and made a good fight against the flames but the later had too much of a start. James Donohue of the Geyer house and in the stable at the first alarm and said he heard a horse kicking in the stable, but the place was wrapped in flames and no one could get in. Joseph Melville was wiring the third floor of the Geyer house directly overlooking the stable, and said that the fire was the most rapid he ever saw, the flames bursting out all over the stable at once.

The fire broke out a second time in the evening from smoldering hay bursting into flame, and another alarm was sent in, but the blaze was soon subdued. There was a quantity of hay and feed destroyed. There was no insurance on the stable or its contents. The night previous the residence of T. J. Dikins was badly damaged by fire.

THE WILLIAMSPORT GUARANTY FUND PLAN.

The WilliamSPORT plan of an industrial guarantee fund provided for the purpose of attracting to Connelville desirable manufacturing establishments seeking sites has not been clearly understood; in fact, it is not yet clearly comprehended, but enough is known concerning it to warrant the conclusion that it will prove easier and safer than it was generally thought.

As we understand the plan, IT DOES NOT INVOLVE A CASH-DOWN PAYMENT of the guaranty fund subscription, but only THE LOAN OF THE SUBSCRIBER'S CREDIT. The subscribers are not required to advance the cash, but only to authorize the endorsement from time to time of paper by their certain attorneys-in-fact in such amounts as may be necessary to meet the reasonable cash requirements of industries locating here under agreement with the Chamber of Commerce. This paper the banks will discount and carry for such reasonable periods as may be necessary to thoroughly try out each industry. If any industry proves to be a failure or an undesirable one to continue, the subscribers to the guaranty fund will be called upon to pay into the fund in proportion to their subscriptions a sufficient amount to meet the obligation or such part of it as the endorsers are called upon to pay. If, however, the industry is successful enough to pay the obligation when it falls due, the endorsers are not called upon for anything; in other words, they WILL HAVE LOCATED A VALUABLE INDUSTRY WITHOUT ANY EXPENSE whatever to them.

The WilliamSPORT plan DOES NOT APPARENTLY BIND THE GUARANTORS OF THE FUND FOR ANY GREATER AMOUNT THAN THEY SUBSCRIBE. If any subscriber fails or dies, it is stated that the liability of the other subscribers on any endorsement made by the attorneys-in-fact is not thereby increased one penny, but that the banks assume the risk of this being made good by new subscribers. This makes the banks assume some risk, but not more than they ordinarily do in business and not more than they should equitably contribute to the work of upbuilding their own business.

The WilliamSPORT plan DOES NOT CONTEMPLATE ANY DONATIONS, BUT ONLY INVESTMENTS in stocks or other securities or endorsements for loans for the purpose of starting profitable industries. Most good manufacturing establishments seeking locations will prefer to be helped financially without parting with any share of their business to the public. If they have profitable propositions they will naturally prefer to pay legal interest on their borrowed capital rather than share their profits with outside stockholders.

THE LEGITIMATE INDUSTRIES of today SELDOM ASK ANY OTHER ASSISTANCE THAN THIS. Cash donations, free sites, free taxes and divers other free gifts are seldom demanded, because they always suggest the idea that somebody is asking something for nothing. AN INDUSTRIAL PROPOSITION SHOULD BE A BUSINESS PROPOSITION, NOT AN APPEAL TO CHARITY. While such appeals have been common in the past, the saving horse sense of the financial world does not in this latter day give them very cordial endorsement.

It ought not to be difficult to raise a liberal industrial fund on the present WilliamSPORT plan if we understand it right, provided the managers of the Chamber of Commerce approach the matter in the right spirit and in the right manner.

It has been stated that there is too much overpromising modesty, too much backwardness about coming forward, or too much plain selfishness among the business and property interests of Connelville, and the charge is only too well founded. A progressive few have put their shoulders to the wheel while the remainder have graciously permitted themselves to be hauled by those who pushed. All this must be changed. Everybody must push. THE CAR OF PROGRESS IS NOT A PASSENGER CAR; IT IS STRICTLY A FREIGHT CAR, AND EVERY SHIPPER MUST PAY HIS SHARE OF THE FREIGHT.

There is but one reasonable and fair way of doing this and that has already been outlined in these columns. The business and property interests of the town MUST BE EQUITABLY RATED AND ASSESSED, and every man must guarantee the payment of his just and equitable assessment.

The time has arrived when the BUSINESS AND PROPERTY INTERESTS of Connelville MUST GET TOGETHER and get busy for their self-preservation. They must be given to understand that IT IS THEIR FUTURE, not that of a poor pauper whom nobody owns. They MUST PROTECT THEIR OWN INTERESTS and no longer depend upon favoring circumstances or enthusiastic citizens with larger public spirit than pocketbooks to bear their burdens for them without compensation or complaint.

We pay taxes for the protection of our property from the Right of Might, and on the same principle we must subscribe to the industrial guaranty fund TO PROTECT OUR PROPERTY FROM THE NATURAL DECLINE IN VALUES WHICH INEVITABLY ACCOMPANIES THE DECADENCE OF A COMMUNITY.

CANDIDATE JONES ON THE LICENSE QUESTION.

The Judicial content is largely one of printer's ink, in which regard it is quite up-to-date and perhaps quite as effective as it could be, though the Democratic candidate doubtless has reason to know that personal contact with the Common People is sometimes more powerful than organization and corporate influence. "A drop of ink makes millions think." Fayette county hasn't the required millions to think, but her thousands are kept guessing by burles of printer's ink and drygoods boxes of political mail.

The Democratic literary bureau has tried to make it appear that Alfred E. Jones, the Republican candidate, is opposed to the liquor traffic; that if elected to the bench he will not grant licenses; that he is in fact if not in name a Prohibitionist. This is a serious matter for the liquor interests, since the license Court must be unanimous in the granting of liquor licenses, and the objection of one judge is fatal to any or all license applications. It follows, therefore, that if Candidate Jones is opposed to granting licenses, his election would mean a dry county, which to a disconsolate liquor interest would mean ruin and desolation.

But Candidate Jones denies the soft impeachment, and he claims that he does so with consistency and honesty. He says, "The law being as it is, conditions being as they are, I say to you that I will grant licenses." He has a just appreciation of the rights and duties of the Courts and the Legislature. It is the business of the latter to make the laws and of the former to interpret and enforce them.

No matter how judges may feel about the moral questions involved in the license system, it is their sworn duty to administer the law as they find it; and while they are given large discretion in the matter of granting individual licenses they are not empowered to enact Prohibition. The Supreme Court has recently passed upon this point by saying in effect that a wholesale refusal of license applications is a plain denial of the rights of citizens under the law.

The U. S.—Great Hemlock! That's an election all right in Old New York.

THE PUBLICITY OF PUBLIC ADVERTISING.

The Republican Functionary Split discourses exhaustively and luminously on the ethics of public advertising as follows:

There are some county officials in the great Commonwealth of Pennsylvania who do not have a proper conception of their duties, or the obligations they owe to the people. This is not a startling announcement. Personal and political favoritism is shown by some officials that would not be tolerated for one moment in private business. A man acting as a public official, either elective or appointive, is under the same obligation to perform his duties conscientiously with a view to giving the best service of which he is capable, as if he were working for a private individual or firm.

One of the things in which county officials are most delinquent is in the matter of the distribution of public advertising matter. The advertising manager of a mercantile firm who would select a medium of small circulation and pay the same price that he would pay for a medium of large circulation, is guilty of a much greater delinquency than the public official who is guilty of the same. The public official who is guilty of the same is guilty of a much greater delinquency than the public official who is guilty of the same. The public official who is guilty of the same is guilty of a much greater delinquency than the public official who is guilty of the same.

The law gives county officials wide discretion in the selection of advertising mediums; but they are prohibited from using that discretion in the interest of the public service, and not in accordance with their own favorites or personal interests. Hence when a public official is injured by the want of intelligent discrimination on the part of an official in placing advertising matter, he may recover damages from the offending official.

For instance, if a man's property is sold under a sheriff's sale, and he can show that the bad judgment of the sheriff in the selection of advertising medium caused a thin attendance at the sale, and a consequent loss to him in the price received, he has a clear case of damages against the sheriff. This has been repeatedly decided by the courts, and many cases of recovery are recorded.

A public official should remember that, in placing public advertising, he is spending the public's money, and not his own, and that he has no right to use it as a means of conferring personal favors or of paying political debts. He should further remember that he is morally bound to perform his duties with a view to the best interest of the public, and with a view only to giving the public the best service of which he is capable.

No public official has a right to assume that anything in the way of public advertising is a mere matter of form. It is bound to have a serious and useful, as much of it as, and if he does not wish to better the trust placed in him by the people who elect him, he must exercise intelligent discrimination, without prejudice or personal favoritism, in the selection of proper advertising mediums.

Public advertising is usually a matter of official favor, but it should not be so. Sheriff Johns started out to advertise his judicial sales in the newspapers of the locality wherein the property was situated, but the exigencies of politics led him to discard this excellent and equitable rule. Justice to unfortunate debtors, not to any unfortunate creditors, and his own self-respect and integrity as an officer, should lead him to restore the businesslike rule under which he began his administration.

Public advertising is not a personal favor, but a public duty.

Concerning Sidewalks.
Everett Press.

The Supreme Court has decided that where a property owner has been notified to repair the pavement or sidewalk along his property or has actual notice or knowledge of their defective condition and he neglects to repair them, the same owner is liable for all damages that may result by reason of the defective and unsafe sidewalks. Furthermore, Judge Connel, of Cambria county, has ruled that any public officer or officers whose duty it is to see that a highway is kept in good repair, and that if such officers neglect their duty that they were responsible for damages. This applies to the street committee as well.

Local History in the Schools.
Cambria News.

The Connelville Courier favors teaching local history in the public schools. Many intelligent people agree with our esteemed contemporary in this; and when it comes to local history the community has a wealth of material lying in many other communities of the State and Nation should be made known to the people. In our public schools, and in the homes also. Through a study of local history the boys and girls may come to have a genuine interest in State, national and general history.

Important

As style and fit are to footwear, still the most important part about your shoes is SERVICE. You can add beauty of style and correct fitting to very ordinary shoes without much additional expense, but when you must pay for leathers, and you don't get any better leather than you pay for either. Plenty of shoes lower in price than the Nettleton, that look nice, but when it comes to SERVICE just ask the man who wears them and he will begin to tell you about getting them half soled two, three and even four times, tells how nice and soft the upper stock has worn and how well they have kept their shape. Don't you think your Winter Shoes had better be the Nettleton make?

PRIZES FOR THE MARRIED COUPLE.

Scottdale Halloween Celebrators Offer Them for Tonight's Parade.

THE CANDIDATES TO BE THERE

They Will Take Part in Parade and Hold Reception Afterward—Everything in Good Shape for Mill Town's Carnival.

SCOTSDALE, Oct. 29.—There is every indication that tonight will witness the greatest celebration of Halloween ever given in this locality. To the invitations sent out to the candidates of both counties to be present and participate in the parade, the Democratic committee and this morning that Judge Lucien W. Doty, the Democratic candidate for Judge, has signified his intention of being present, and riding in a carriage over the line of march, following this by a reception at the Mill House. It is expected also that C. C. Crowell, the Republican candidate, will also be here. No word had been received this morning from Alfred E. Jones and Judge R. E. Unbel, the Republican and Democratic candidates in Fayette county, although this is so close the border line and there will be so many Fayette county people present that a sight of the candidates would be good in the parade. The prohibition and Socialist candidates of neither county have made any formal response.

A fine rocker and numerous other prizes, it is stated by a large poster, in Owens & Ferguson window will be given to the couple who get married at the Judges' stand tonight. There has been a looking around for such an attraction and it is stated that it looks as if success will crown the committee's efforts and a couple will come forward. They will get a lot of handsome wedding presents if they do, for Scottdale people are generous.

The parade will be very large and far outlast the previous ones. It will assemble at 7:30 o'clock at Loucky park, march up Loucky avenue at 8 o'clock, from Loucky to Grove avenue, down Pittsburg street to Broadway, and out Broadway to Fifth avenue, and return to Chestnut street so that each one will pass the judge's stand twice.

Superintendent J. W. Brown of the West Penn Railway Company, will detain men to Scottdale during the evening to attend the running of the cars through here during the time of the celebration. Disputcher David Wilek will be in charge of the running of the cars during the celebration, and every care will be exercised to prevent any accidents, while the streets are congested with people.

No rowdiness will be tolerated by the authorities but the widest latitude will be allowed in innocent fun. It is not feared that any rowdy pranks will be indulged in as there have been absent during previous celebrations, and it is believed that the same spirit will continue.

The sightseers who are not in mask are requested to keep to the pavements in order that the masqueraders will have the streets to themselves, while those who take part in the parade are tempted to march at a distance apart from each other so that they may be seen plainly. Last year there was difficulty in some instances to see the children particularly as they were crowded together.

There will be a great deal of red fire burned along the route of the parade and automobiles are likely to keep away from the line of march as their gasoline tanks and the slow running necessary is apt to create danger of gasoline explosion. The autists made this objection when asked to take part in the parade, and those in charge quickly recognized the danger. Houses are being decorated today with lanterns and bunting, and the town should show up well.

SUFFRAGETTES RIOT

At the Polls in England During an Election.

London, Oct. 29.—The militant suffragettes got together at the hot Remondsey by-election and went to such an extent in their efforts in behalf of the cause that an election officer is in the hospital and the result of the polling may be affected by their action. It necessitated the substitution of new ballot boxes and it is not known what the ultimate effect will be.

Members of the Women's Freedom league gained admittance to two polling booths and smashed bottles over the ballot boxes. The fluid splashed about and some of it found its way into the voting papers. Fragments of the glass struck the presiding officer at one election place and some fluid got into his eyes.

Inquiries at the hospital in regard to the condition of the injured election officer show that the superficial membrane of the right eye is practically destroyed and that permanent damage to the sight is possible. The women responsible for the outrage proudly admit that it was their intention to invalidate the election. They say they were acting under orders of the Women's Freedom league, whose secretary declares that they had other means to achieve their object up their sleeves if the attempts referred to failed.

BRYAN NOT TO RUN.

Mack Believes Harmon and Marshall Are Popular.

Pittsburg, Oct. 29.—The Post this morning prints the following from its Washington correspondent W. J. Bryan will never again be the presidential candidate of the Democratic party, in the opinion of Norman B. Mack, chairman of the Democratic national committee in Washington.

Mr. Mack said it was quite possible that Mr. Bryan might seek the presidential nomination of his party again. He was not in a position to state what the Nebraska leader's intentions are to the future might be, but he felt confident, from his knowledge of party sentiment, that Mr. Bryan would not be able to secure another presidential nomination.

It was not true, Mr. Mack declared, that he had "sidelacked" Mr. Bryan in favor of Governor Harmon of Ohio. He regarded Harmon as a man of strength and ability, one of the coming men of the party, on whom it would be well for those who are looking to the presidential fight of 1912 with a hope of defeating the Republicans, to keep their eyes.

Both Harmon and Governor Marshall of Indiana, Chairman Mack thought, were attracting more and more national attention every day and growing steadily in popular favor with thinking Democrats.

THREE CORRESPONDENTS

Are Named by Mrs. Astor in Her Suit For Absolute Divorce.

New York, Oct. 29.—It is learned that the suit brought by Mrs. John Jacob Astor is for absolute divorce.

MRS. JOHN JACOB ASTOR

and that three correspondents are named in her complaint. Before Mrs. Astor began her suit she learned that her husband had taken their son, Vincent, from a preparatory school in Rhode Island and that the boy was with his father cruising on the latter's yacht.

Colonel Astor and his wife, according to report, had a serious disagreement while they were in Europe last summer and he preceded his wife to this country. He is said to have known that Mrs. Astor would sue for divorce and is said to have wished to spare the young man the humiliation that would follow the announcement of the legal action.

No Beatification For Columbus.
Rome, Oct. 29.—The correspondent of the Sun learns that the efforts of American Catholics to secure the beatification of Christopher Columbus are likely to be without result. A member of the congregation which has been investigating the matter has learned of several incidents in the explorer's life which may prevent his beatification.

WHERE ARE THE REAL GOOD MEN?

Mrs. Belmont Wants to Know; They Don't Seek Office.

N. Y. POLITICS DISGUSTS HER

Of What Use to Their Country Are the Men of Brain, Wealth and Power if They Won't Assume Responsibility in City's Affairs.

New York, Oct. 29.—Mrs. O. H. P. Belmont is thoroughly disgusted with politics as they are now being conducted in New York City. She gave out the following statement:

"Why has no man of high standing as a moral teacher in either Christian church or Jewish synagogue—why has no man of financial integrity in this city—why has no capitalist of honest repute—why has no able thinker or writer on the questions of the hour—why has no one of these come forward to take part in the battle which is being fought for the control of this big metropolis for the next four years?"

"Where are these men, or do they not exist? Of what use to their country, to their city or to their fellowmen are their integrity, their brain power or their wealth?"

"Are we in the hands of low political parties, each fighting for its own gain? For each candidate tells us of his own virtue, while his opponent is full of the personal depravity of one and all. And they are our candidates, government of Greater New York."

"Can the people—I mean the great mass—vote unadvised by those whose knowledge and interest for them should wisely guide them?"

"In Great Britain men of this character assume their responsibilities, but here—where is our boasted philanthropy? We see a crowd of grown-up helpless, ignorant of wrongs heaped upon them, waiting, expecting help. Where are you men who can do this? Why do you neglect your opportunity? What means this willful indifference?"

"We women who want the suffrage demand that you shall help your fellow citizens, for from us you withhold the right. We demand that men of power, wealth and integrity shall crawl out of their hiding places and cry for a man fit to govern our city."

FAYETTE CHURCH HISTORY.

Westmoreland County Writer Furnishes Data on Early Congregations.

A writer in the Greensburg Tribune gives the following concerning the early days of the Christian Church in Fayette county: Fayette county, as its name implies, is situated in a level tract of country some three or four miles from the Yough river and about eight miles from the mountains. It has been a stronghold of the Baptists for years. In the early days of the reformation Alexander Campbell preached in a grove near the old Redstone meeting

house about one-half mile east of Snake Station on Redstone creek.

The first congregation organized in that locality was at Franklin Crossroads some two miles farther north. Some of the first members of this congregation, as we recall, were John Shotwell and family, Mrs. Rebecca Shickler and son daughters, Jacob Shickler and family, Mr. Cook and wife, William Harper and wife, and Mr. Morris and wife. Among the early preachers were Rev. Satterfield and Elder Spangler. The tract of land on which this house of worship was built; also the cemetery which lies just south of the church, was purchased from Addison Allen. This house which is of red brick, is still standing. The bricks were made and burned on Mr. Allen's farm some 500 yards distant.

Another congregation of the early days was organized at Perryopolis and is in a prosperous condition and some thousands acres of beautiful, rolling lands were owned once by George Washington, he having "blazed" his territory on his return from his famous trip to old Fort Duquesne. Perryopolis is situated on the heights overlooking the Yough river, opposite Layton Station on the B. & O. railroad.

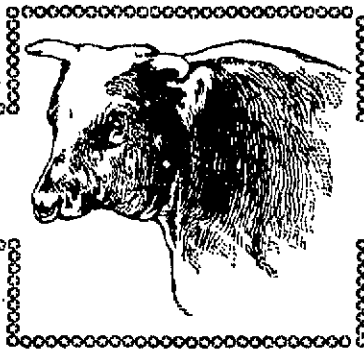

Another congregation of the Dispensary of Christ, organized probably 60 years ago, is situated at Bethel in a beautiful farming district about two miles north of Dawson on the B. & O.

Later congregations were formed at Conneltsville, Uniontown, Vanderbilt, and other points throughout the county.

A FAT WOMAN HATES SOCIETY.

Fat people have to get into clothes that are designed for people of normal physique. The men wear dress suits and look like comic pictures. The women wear low-necked dresses to their evident humiliation. This is why it is often said that a fat woman hates society. Fat is as much the mistake of poor health as anything else. The things that make fat should be making good blood, bone and nerves. The secret is that the digestive machinery is out of gear. The fatness makes fat in too large quantities. This fat impedes circulation, cramps the heart, suppresses the liver, clogs the lungs and interferes with the stomach. Marmala Tablets are harmless. They are taken after each meal. They help digest that meal as nature intended it should be digested. They remove the fat already made at the rate of from 12 to 15 ounces a day and they leave no lumpy skin or wrinkles. They are sold wherever drugs are sold, or in the same category with harmful patent fat reducers. They contain Marmala, Cascara, Aramatic and Peppermint Water. If you do not care to call upon your druggist send 75 cents to The Marmala Company, Detroit, Mich., and they will send you a large full size cure by return mail in plain package postage paid.

THE COLLEGE BOY'S WEDDING SUCCESS.

Fine House Sees Clever Play at the Colonial Last Night.

TO BE GIVEN AGAIN TONIGHT

Is Under Auspices of the Ladies' Auxiliary of the Y. M. C. A.—Members of the Cast Who Distinguished Themselves.

The initial performance of "The College Boy's Wedding" presented last evening in the Colonial theatre under the auspices of the Y. M. C. A. Auxiliary scored a great success. The house was well filled. The audience was a representative and critical one and showed its approval of the work of the entire cast by its generous applause. The play is above the average amateur production and is deserving of a large house this evening. It is well staged and the scenic accessories are very pretty. The work of the entire cast showed careful training by Stuart Brodbeck. The girls were as pretty and graceful as the boys were salted.

While many of the cast were well known to the audience, there were several who made their initial appearance before a local audience last evening. Among these were Miss Mary Thomas of Connelville and Alex Leisenring of Dunbar. Miss Thomas and Mr. Leisenring were for honors. As Sally Ann Pickles, a hired girl, Miss Thomas made a great hit with the audience. Her acting was clever and by her humorous manner and sayings she won much applause. Alex Leisenring, as Uncle Josiah Hedges, a Vermont farmer, portrayed the character in a capable manner and his acting was superior for that of an amateur.

While all the leading characters were good the interest centered around Miss Marie Benford, as Ruth, the farmer's daughter, and Charles Colbert of Uniontown, as Frank Ralston, the college boy. On her appearance last evening Miss Benford was greeted with loud applause. As a farmer's daughter she was charming. Miss Benford applied her talent last evening in a very capable manner. Her stage manner is free and easy and her enunciation clear and distinct. Mr. Colbert played the part of an ardent lover in a manner which pleased the audience. Mrs. A. D. Sisson as Mrs. John Ralston, mother of Ralston, was especially good as was Miss Mary Parkhill who so ably portrayed the character of Mrs. Hedges. Ruth's mother. Miss Emma Kate Dull made an attractive college girl while Miss Jennie Crossland as Samantha Ann Higgins came in for no small share of the honors.

Miss Mildred Miller, as Galdys Singer, pleased the audience with her singing. Miss Miller has a sweet voice and her selections last evening were well chosen. Mrs. Jeannette Crossland, made an excellent chaperone. G. Stuart Brodbeck, as Philander T. Packer, contributed greatly to the success of the play by his clever acting. Others deserving of special mention were Robert Morton, Charles Kistler, as college boys, and John Thomas as Zeke, the chore boy.

The scene in the first act is laid in the Green Mountains on a Vermont farm. Ruth, the farmer's daughter, falls in love with Frank Ralston, a college boy. The parents of the young couple finally consent to the marriage and all goes well for a short time. The bridegroom soon tires of his uneducated country bride. Overhearing a conversation of her husband's the bride learns that he has repented his rash act. She finally decides to go to London where she enters a fashionable seminary for young ladies. On her return she is accomplished and finally wins the love of her husband. The figure dance in the last act is very clever.

A delightful feature was a box concert between the acts. That the work of Miss Martha Stiekles of Greensburg as a reader and Miss Gertrude Sykes of Greensburg as a soprano was highly appreciated was shown by the deafening applause. Miss Stiekles is a prominent teacher of elocution in Greensburg and is deserving of the loud praise which has been given her.

Miss Sykes is soprano in the Sixth Presbyterian Church in Pittsburg and is a member of several prominent musical organizations. By her charming manner and clever singing she captivated the audience. She is the possessor of a voice of wide range and great volume. Both responded to encores. Miss Pearl Keck, the accompanist, was excellent. Miss Keck is one of Connelville's most talented young musicians. The work of the Y. M. C. A. orchestra under the direction of Prof. A. B. Morton was fine. Between acts charming young girls sold candy for the benefit of the Auxiliary.

This evening the box concert between the acts will be repeated. The performers are Mrs. Hunter of Greensburg, reader, Miss Mary Allhouse of Greensburg, soprano, and Miss Pearl Keck, accompanist. The entire sale of seats for this evening has been very good. The concerting of superior of those who witnessed the play last evening is that it was one of the best home talent productions ever presented here.

Patten, on Bull Side of Cotton Market, Swells His Bank Account. Chicago, Oct. 29.—Profits which James A. Patten and his friends have been piling up on the bull side of the cotton market, were swelled by a further sharp rise in the price. Mr. Patten has been right on the cotton market for some weeks, and, according to brokers, the steady advance in prices during that time has added a big round sum to the fortune which the former mayor of Evanston has wrested from the grain pits on the board. His winnings so far are estimated at upward of \$1,000,000.

The Raincoat.

A Raincoat is a "Jack-of-all trades" If it looks like, you slip into your Raincoat. If it rains, it shows—well and good—and if it clouds up—all right. Your Raincoat is as dressy as any light-weight Topcoat you could want—a perfectly balanced Overcoat, constructed to turn water.

\$12, \$15, \$18, \$20, \$25

The Raincoat of today is a different proposition from the coats of a few seasons ago. Our Raincoats are made by a Master with a reputation for making the best of coats and we guarantee them in every way.
